

## Manage a LIN/TAMCN List

### Overview

The Warehouse Management module Manage LIN/TAMCN Lists process provides the ability to create, update, and delete lists that are used for custom reporting. LIN/TAMCN Lists are managed and shared at different Enterprise Levels such as Logistics Program, Region, Site and Warehouse.

Sharing a LIN/TAMCN List allows other personnel access to the list within levels (Logistics Program, Region, Site, and Warehouse) of the Logistics Program.

#### Attention

Only the list creator can edit (update or share) the list.
