

## UIC DODAAC/CAGE

1. Navigate to the **Master Data > UIC DODAAC/CAGE** menu path.
2. Enter your **UIC**.
3. Select the **Add** button (or **Search** for deleting).

Search Criteria	
UIC	E10124
<input type="button" value="Add"/>	<input type="button" value="Search"/> <input type="button" value="Reset"/>

4. Enter the **DODAAC/CAGE Cd**. If a CAGE code is added to a UIC, that UIC is considered to be used by a contractor even if the primary and other non-primary codes are Governmental DODAACs.
5. Select if this is a Non-Primary DoDAAC or CAGE Cd.
6. Select **No** from the **Transfer Via WAWF** drop-down list. This field should be set to **NO** until you have completed all WAWF setup requirements.
7. Select **Add** to complete the process.

Add			
Actbl UIC	NM1234		
UIC	E10124		
*DODAAC/CAGE Cd	5KNT2	*Type	N - Non-Primary DODAAC
*Transfer Via WAWF	NO		
<input type="button" value="Add"/>		<input type="button" value="Cancel"/>	

### What is a Department of Defense Activity Address Code (DODAAC)?

A distinctive code assigned to identify specific units, activities, and organizations, non-DoD and contract activities engaged in the requisitioning, receiving, and billing of material. One use is for transportation and routing of equipment.

A Primary DODAAC is created when a UIC is added to Web DPAS. You may add Non-Primary DODAACs whenever additional address codes are required. For example, when a shipment is to be routed someplace other than the primary address.

### What is a Commercial and Government Entity (CAGE) Code?

A code assigned to suppliers (to Government or Defense Agencies) and various organizations. CAGE codes provide a standardized method of identifying a given facility at a specific location.
