

# **LIN/TAMCN Overview**

### **Overview**

The Inventory Control Point/Materiel Management module Line Item Number (LIN) / Table of Authorized Materiel Control Number (TAMCN) process provides the ability to associate individual stock numbers into product family groups within a catalog. They are also used with authorizations and stocking levels.

### **Navigation**

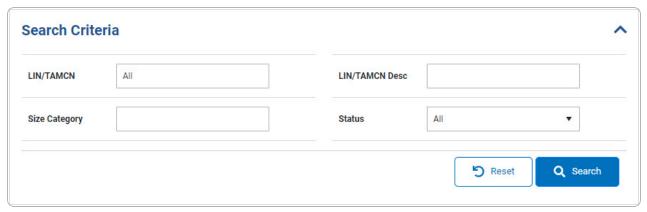

CATALOG MGMT > LIN/TAMCN > LIN/TAMCN page

#### **Procedure**

#### Search for a LIN/TAMCN Record

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting at any point of this procedure returns all fields to the default "All" setting.

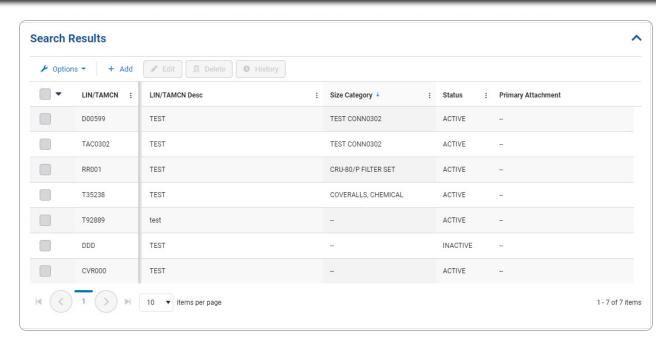

1. In the Search Criteria panel, narrow the results by entering one or more of the following optional fields.

2. Select Q Search . The Search Results appear.
