

# Search for a Certification/License — Criteria

## **Overview**

The Maintenance and Utilization module Certification/License process provides the ability to maintain a master list of Certifications and Licenses for the accessed Maintenance Activity. It allows the creation of associations between the Technicians/Operators, and the licenses/certifications required to perform the work required in the Work Plan.

Master Data > CERT/License > Certification/License Search Criteria page

## Procedures

#### Search for a Certification/License

One or more of the Search Criteria fields can be entered to isolate the results. By default, all

results are displayed. Selecting at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one of the following optional fields.

Search Criteria			
Cert Type Cd	<b>~</b>	Cert/License Name	
			Reset Search Add

2. Select Search for a Certification/License — Results page appears. Results display in the Search Results grid.
