

Search for a Dispatch – Criteria

Overview

The Maintenance and Utilization module Dispatch process provides the ability to view existing dispatch records, create a reservation for sub-categories of equipment and dispatch equipment, and record the return of equipment when its dispatch period ends. Dispatch Categories and Sub Categories are user created and maintained.

Procedures

Search for a Dispatch

One or more of the Search Criteria fields can be entered to isolate the results. By default, all results are displayed. Selecting Reset at any point of this procedure returns all fields to the default "All" setting.

1. In the Search Criteria box, narrow the results by entering one or more of the following fields:
