

Welcome

Overview – ELMS

Welcome to the Enterprise Logistics Management System (ELMS) Help System. The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system. It is the Accountable Property System of Record (APSR) for over 50 DoD Agencies and Military Services. The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMS PMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Overview – Small Arms / Light Weapons Registry Help

This online help is designed to provide access to detailed information and instructions about accountability for all weapons within the DoD. This module is in response to a MILSTRAP policy that was DoD mandated.

Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Module

Welcome to the Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Help System.

ELMS Summary

Welcome to the Enterprise Logistics Management System (ELMS) Help System.

The Enterprise Logistics Management System (ELMS) is a Department of Defense (DoD) property management system.

It is the Accountable Property System of Record (APSR) for over 50 DoD Agencies and Military Services.

The ELMS program office is located within DLA Logistics Catalog and Data Solutions (LCDS), a Portfolio of the Information Operations of the Defense Logistics Agency. The ELMSPMO receives sponsorship from the Equipment Office, under the Office of the Assistant Secretary of Defense (OASD) for Sustainment / Logistics.

Registry Summary

The Small Arms / Light Weapons Registry module is designed to create accountability for all weapons within the DoD. This module is in response to a MILSTRAP policy that was DoD mandated.

There are three ways to enter and manage weapons:

- **Auto Add (ELMS Managed)**
 - The weapons are entered in either the PA or Warehouse modules.
- **Auto Add (Externally Managed)**
 - The weapons are entered through DLMS Transactions.
- **Manually Add**
 - The weapons are entered manually through the Registry module.

Registry Structure

The Registry module is set up in a hierarchy type model:

Registry — created by the ELMS User Account Team
— Completes a MILSTRAP Policy Requirement; all Registry works together for the DoD.

Agency — created by the ELMS User Account Team
— Air Force, SOCOM; the specified branch of the military.

Accounts — created by the ELMS User Account Team
— DoDAACs; where the weapon physically resides.

Assets — created by the ELMS User Account Team
— Includes the history, where it is now, and where it is being shipped, etc.

Registry Key Functions

The main parts of the Registry module include:

- Registry Management, which includes:
 - Registry Asset Management
 - Account Management
 - In-Transit Management
 - Account Reconciliation
 - DLMS Transactions
- Inquiries
 - Registry Asset History
- Report Manager
 - View Reports

Registry User

Registry is role-based, similar to all other ELMS modules. Those roles include:

- **Registry Manager**— the all-encompassing role
- **Registry Administrator** — the utility role
- **Serialization Officer**— the role specific to a DoDAAC
- **Registry Inquiry** — the inquiry role
- **Agency Manager** — the most basic role

The security uses C.R.U.D. methodology:

- **Create**
- **Read (Inquiry)**
- **Update**
- **Delete**

Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Module Navigation

Overview

This page describes the primary features found on the Registry pages:

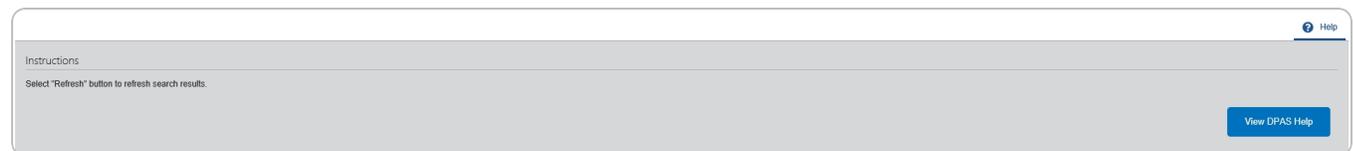

- Blue Menu Bar
- Menu Bar
- Instructions
- Help
- Search Criteria
- Results Grid
- Standard Buttons

Additional information about ELMS can be found at the ELMS Support Site.

Navigation

ELMS Small Arms / Light Weapons Registry Module > Any Process Page >  Help >

[View DPAS Help](#)

Blue Menu Bar

The Blue Menu bar is at the very top of the page.

The items on the left side are:

-  **ELMS logo** —
Returns to the home page.

- **Module Name** **Registry** ▾ —
Shows where the user is currently working. Opens to a drop-down list of available modules; select to open a different module.

The items on the right side are:

- **Element** **Element Spt Equip 01** —
Opens the Active Tier pop-up window. Shows the Forces available to the user.
- **User ID** **User ID GROCEBP** ▾ —
Opens the Log Out menu item.

Menu Bar

The Menu bar is between the Red Menu bar and the Process page. While each user's Menu Bar contains different items, they all work the same way to open a Process page. There are two methods to open a Process page: either the Menu item drop-down lists, or the Search field.

Use the Menu item drop-down lists

1. Hover the mouse over a Menu item drop-down list. *The drop-down list of the processes in that Menu item appears.*
2. Select a process from the drop-down list. *The Process page appears.*

Use the Search field

1. Select the down arrow in the Search field. *The complete list of all the Registry processes appears.*
2. Select a process from the drop-down list. *The Process page appears.*

OR

1. Start entering characters in the Process name in the Search field. *Using Intellisense, the Process names with those characters appear.*

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

2. Select a process from the drop-down list. *The Process page appears.*

Instructions

At the top of each Process page is a collapsed Instructions panel.

View the Instructions

- Select . The Instructions panel expands.
- The Instructions panel assists with various options on the Process page:

Help

At the bottom right of the Instructions panel is the Help button

View the Help System

- Select . *The Help System opens in a separate tab.*
- The Help System is context-specific, and opens to the Overview topic for the current Process page.

Search Criteria

Most Registry Processes have a Search Criteria panel. *Use it to narrow the number of records in the Results Grid.*

Use the Search Criteria panel

1. Enter the available information in the fields.
2. Use the field assistance available:
 - Use the drop-down  to select the field entry.
 - Start entering characters in the fields with .

Note

Some fields provide **Intellisense**, which is the automatic completion of a field entry in a software application.

The application displays a selectable word or phrase in that field, based on the input (that was previously entered), without having to completely type the entry.

- Use  to open the Browse pop-up window.

Select  to perform the search, or select  to clear the fields.

Results Grid

Each Process page displays the corresponding data in a Results Grid. Each Results Grid has basic properties that are always the same.

Those include:

- **Title Bar —**

Shows the overall Results Grid buttons.

- **Column Header —**

Shows the title of each column, along with the ability to sort and / or filter that column.

- **Individual Records —**

Shows the rows of data in the Results Grid.

- **Bottom Scroll —**

Standard Buttons

Each Registry process page has some basic buttons that are always the same. *Those include:*

Search Criteria

- **Search**  —

Searches the data within the process results grid.

- **Reset**  —
Erases the entered fields and starts over.
- **Scan CAC**  —
Opens the pop-up window containing the CAC field, ready for the scanned information.

Results Grid

- **Add**  —
Creates a new record in the process results grid.
- **Grid Options**  —
Changes the way information appears in the Results Grid. See Grid Options Overview for additional information.

Individual Records

- **Edit**  —
Revises a record in the process.
- **Delete**  —
Erases a record in the process.
- **History**  —
Opens the History pop-up window, and shows the past edits of the record in the process.
- **Labels**  —
Opens the Print Labels pop-up window, and prints the labels for that record in the process.

Enterprise Logistics Management System (ELMS) Small Arms / Light Weapons Registry Module Grid Options

Overview

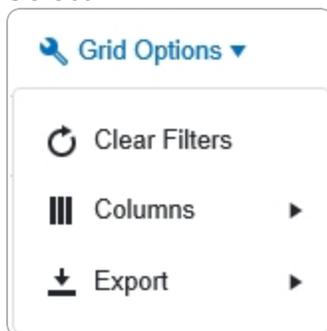

This page describes the features of the Grid Options within the Results Grid in the Small Arms / Light Weapons Registry Management module.

Navigation

ELMS Small Arms / Light Weapons Registry Module > Any Process Page > Results Grid > Title Bar > 

Grid Options

Select . The Grid Options drop-down menu appears:

Note

The Export option **only appears** in the Inquiry menu items.

These options change the way information appears in the Results Grid. They include:

Clear Filters

Erases any filters used within the Results Grid columns.
