# Install Application cont'd

 If the notification does not appear, the option may be located using the dropdown menu.

If you do not see the install prompt:

- Allow the page to load completely
- Using the menu, Navigate to [...] > Settings > Privacy and security > Clear browsing data
- On both Basic and Advance tabs, clear Data
- Refresh the page

If the install prompt does not appear, ensure settings managed by your organization are not restricting the required extension

- Once the install is complete, a shortcut will appear on the home screen of the device.
- 7. Find and select the shortcut to launch the application.
- The application will launch in a new window, and is now able to be ran offline.
