

## **Process an Inquiry**

- In the DPAS Warehouse Management module, navigate to the desired **Inquiry** from the **Inquiries** menu - The Results Grid displays a list of all items related to the inquiry.
- 2. Utilize the Enterprise Rollup Search Feature, this will provide a higher view of visibility amongst your agency's Logistics Program.
- Select the Apply button The requested Enterprise view will be applied to the Search Results grid.

## **Warehouse Management - Inquiries**

Inquiries has several main types of requests:

- **Catalog Inquiry** the Stock Number Catalog Inquiry will provide a list of all Logistic Program Stock Numbers.
- Inventory Inquiries the inventory inquiries display inventory levels at the stock number level, LIN TAMCN level, ICN detailed level, etc.
- Issue Return Activity this inquiry displays warehouse individual issue and return activities.
- Unit Issue Inquiries these inquiries display warehouse unit issuing activity, trend analysis, and an inquiry on all unit outstanding inventory.
- Maintenance Inquires these inquiries display Warehouse Maintenance Issue details, Maintenance & Utilization Work Orders and Work Plans.

	Instructions				Ψ
