

Code	Definition
A	Serviceable (issuable without qualification). New, used, repaired, reconditioned materiel serviceable and issuable to all customers without limitations or restrictions. Includes materiel with more than 6 months of shelf-life remaining.
B	Serviceable (issuable with qualification). New, used, repaired, reconditioned materiel serviceable and issuable for its intended purpose, but restricted from issue to specific units, activities or geographical areas by reason of its limited usefulness or short service life expectancy. Includes materiel with 3 through 6 months shelf-life remaining.
C	Serviceable (Priority issue) Items serviceable and issuable to selected customers, but must be issued before Supply conditions Code A and B materiel to avoid loss of a usable asset. Includes materiel with less than 3 months shelf-life remaining.
D	Serviceable (Test/Modification). Serviceable materiel requiring test, alteration, modification, technical data marking, conversion, or disassembly. Includes items that require surveillance laboratory analysis, functional testing, and technical evaluation by higher authority to verify serviceability.
E	Unserviceable (Limited restoration). Items that involved only limited expense or efforts to restore to serviceable conditions. It is done in the storage activity.
F	Unserviceable (Reparable). Economically reparable items that require repair, reconditioning, or overhaul.
G	Unserviceable (Incomplete). Materiel requiring additional parts (B II) or components (non-functional) to complete the end item prior to issue.
H	Unserviceable (Condemned). Materiel that has been determined to be unserviceable and does not meet repair criteria; condemned items which are radioactivity contaminated; Type I shelf-life materiel that has passed the expiration date and Type II shelf-life materiel that has passed expiration date and cannot be extended. Must contain any components or assemblies to be reclaimed.
J	Suspended (In stock). Items in stock that have been suspended from issue pending condition. Classification or analysis when the true condition is unknown. Includes shelf-life Type II materiel that has reached the expiration data, and Type II shelf-life materiel that has passed expiration date and cannot be extended.

Code	Definition
K	Suspended (Returns). Items returned from customer and uses suspended from issued pending inspection and condition classification.
L	Suspended (Litigation). Materiel held pending litigation or negotiation with contractor or common carrier. Includes shipments with overages, defects, or other conditions that require negotiations or litigation with procurement sources or common carrier to determine responsibility or liability for correction. Assets held pending the results of a report of survey are also included. This code should not be used with misdirected shipments.
M	Suspended (In work). Items on inventory control record but that have been delivered to and accepted by an Army or DoD maintenance facility or a contractor's plant for processing.
N	Suspended (Ammunition suitable for emergency combat use only). Ammunition stocks suspended from issue except for emergency combat use.
P	Unserviceable (Reclamation). Unserviceable, uneconomically reparable because of physical inspection, tear down, or engineering decision. Items contain serviceable components or assemblies that may be reclaimed.
Q	Suspended (Quality deficient exhibits; intra-Air Force use only). DLA does not accept assets for this code.
R	Suspended (Reclaimed items awaiting condition determination). Assets turned in by reclamation activities which do not have the capability (e.g., skills, manpower, or test equipment) to determine the materiel condition. Actual condition will be determined prior to induction into maintenance activities for repair /modification.
S	Unserviceable (SCRAP – only for transactions involving shipments to Defense Reutilization and Marketing Office (DRMO). Items that have no value except for basic materiel content. No stock will be reordered as on hand in condition code S.
