Release Notes Overview

Release 2020.1.1 for the Defense Property Accountability System (DPAS) was released on March 27, 2020.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts eCatalog, Maintenance and Utilization, Materiel Management, Mobile Platform, Property Accountability and Warehouse modules.

eCatalog

Help Tickets

The following eCatalog Help Tickets were closed by this release:

Stock Number (AUD) (LPCTN01)

Help Ticket #37514

- Corrected a deficiency where UI fields were not displaying saved values correctly on stock number AUD screens.
- Added field validations for stock number length, unit price and shelf life on stock number AUD screens

Help Ticket #36068

- Corrected a deficiency where re adding a stock number was erroring with a missing condition code error.

Help Ticket #36098

- Corrected a deficiency where the users were not able to edit asset category code and other fields on Stock Number AUD screens.

Help Ticket #36263

- Corrected a deficiency where stock number values were not loading on the Stock number AUD screens.

Maintenance and Utilization (M&U) Module

System Change Request (SCR)

The following feature, which is a part of Force System Management SCR 1328, was implemented by this release:

SCR #1328 – Site closeout screen

- Provided NMC Readiness Reporting Setup and Parameters.

Help Tickets

The following M&U Help Tickets were closed by this release:

GSA File Upload (WPMAU02)

Help Ticket #36733

- Corrected a deficiency where users couldn't close NMC work orders.

Materiel Management

System Change Request (SCR)

The following feature, which is a part of Materiel Management SCR 1387, was implemented by this release:

SCR #1387 – ICP Processes Receipts for RDOs

- The ICP module will support incoming DLMS 527R transactions for Receipts against a Redistribution Order.

Mobile Platform

System Change Request (SCR)

The following feature, which is a part of Mobile Platform SCR 1235, was implemented by this release:

SCR #1235 – Mobile Application-Physical Inventory - Improved Bulk Inventory Support

- Provided the ability to complete bulk inventory counts with visibility to appropriate business key values.
- Provided the ability to view and multiple inventory details when scanned data does not uniquely identify the asset
- Provided better visibility/accessibility to view, capture and change container and subloc information
- Provided better support for large file inventories
- Provided better filtering and sort options within the user interface

Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Generate DD1348 Issue Release Receipt Document (WPHRN63)

Help Ticket #34359

- Corrected a deficiency where Serial barcodes were duplicating on Continuation page.

Warehouse Management (WM) Module

System Change Request (SCR)

The following feature, which is a part of Warehouse Management SCR 1564, was implemented by this release:

SCR #1564 – Warehouse Receiving - Asset Receiving Updates for Large Quantities of Serial Assets

- Added ability to receive for up to 10,000 serialized end items at a time through the use of a spreadsheet upload in Warehouse. Upload is currently constrained to serialized end items only. It does not include kits or bulk items, and is not for use against items sent from Warehouse Transfer.

The following feature, which is a part of Warehouse Management SCR 1501, was implemented by this release:

SCR #1501 – Include the UIC description wherever the UIC is displayed or used within DPAS

- Added a "UIC description" to the Individual Issue/Return Inquiry and Member Activity Inquiry screens.

The following feature, which is a part of Warehouse Management SCR 1575, was implemented by this release:

SCR #1575 – Inventory Activity added to Stakeholder role

- Provided read-only access to the inventory Activity queries by anyone using the Stakeholder Role in warehouse.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Shelf Life Extension (LPWHN40)

Help Ticket #37552

- Added Last Updated By column to Shelf Life Extension.

Warehouse Receiving (LPWHN19)

Help Ticket #27537

- Corrected a deficiency in warehouse receiving where users could not complete receipt process.

Container AUD (LPWHN20)

Help Ticket #37242

- Corrected a deficiency where containers deleted in one warehouse could not be recreated in a different warehouse.
