

## Effective Date

17 April 2020

## Release Notes Overview

Release 2020.1.2 for the Defense Property Accountability System (DPAS) was released on April 17, 2020.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts eCatalog, Property Accountability, Mobile Platform, and Warehouse modules.

### eCatalog

#### Help Tickets

The following eCatalog Help Tickets were closed by this release:

#### *Stock Number (AUD) (LPCTN01)*

Help Ticket #37880

- Corrected a deficiency where “TS-Towing Service” Mgmt Grp ID is not displaying in Stock Number AUD.

Help Ticket #33578

- Corrected a deficiency where system was displaying incorrect ‘Established By’ and ‘Established Date/time’ values

### Mobile Platform

#### System Change Request (SCR)

The following feature, which is a part of Mobile Platform SCR 1235, was implemented by this release:

SCR #1235 – Mobile Application- *Physical Inventory - Bulk Inventory Count Resolution*

- Transition the 'view remaining items' toggle into a dropdown that features 4 options
  - 'view all counted - all locations'
  - 'view all counted - current location'
  - 'view all remaining - current location'
  - 'view all remaining - all locations'
- Allow the existing column headers to be sorted
  - clicking header applies ascending sort
  - clicking again applies descending sort

### Property Accountability (PA) Module

#### System Change Request (SCR)

The following feature, which is a part of Property Accountability SCR 1460, was implemented by this release:

#### SCR #1460 – Include Custodian Number in AFWay Interface

- Provided Air Force data feed of property owners to the Air Force AFWAY system for IT equipment through GEX channels. Reconfigured interface feed from Web Services to GEX based transmission

The following feature, which is a part of Property Accountability SCR 1540, was implemented by this release:

#### SCR #1540 – AFWay/DPAS Interface via GEX

- Provided Air Force data feed of property owners to the Air Force AFWAY system for IT equipment through GEX channels.

### Help Tickets

The following Property Accountability Help Tickets were closed by this release:

#### *Pending Catalog Transactions (WPCTN06)*

##### Help Ticket #36836

- Corrected a deficiency where processing of MP and CP records were displaying java error.

#### *Asset Transfer (WPHRN52)*

##### Help Ticket #37549, #37268, #47438

- Corrected a deficiency where asset transfer process was failing because of the missing UIC Key.

##### Help Ticket #37099, #37348

- Corrected a deficiency where site to site transfer was failing.

## Warehouse Management (WM) Module

### System Change Request (SCR)

The following feature, which is a part of Warehouse Management SCR 1591, was implemented by this release:

#### SCR #1591 – DAPS Roles Addition

- Added Custom roles for the AS(ALT) community in support of the mission objectives of the Program Managers.

The following feature, which is a part of Warehouse Management SCR 1501, was implemented by this release:

#### SCR #1501 – Include the UIC description wherever the UIC is displayed or used in DPAS

- Added ability to search by UIC name or UIC to Member Size Inquiry.

### Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

---

### *Expiring Items Replacement Report (LPWHR74)*

Help Ticket #34940

- Corrected a deficiency where the Expiring Items Replacement Report was timing out.

### *Material Release Order (LPWHN35)*

Help Ticket #37428

- Corrected a deficiency within MRO wherein an MRO could be created in the ICP with characters in the Order Instructions field that the Warehouse MRO screen does not allow. These additional characters are now allowed in MRO within the Warehouse.

Help Ticket #37479

- Corrected a deficiency where user was not able to update an MRO due to error "Media Status Code is required when DoDAAC is externally managed". The user is now able to update the Media Status Code if no value is provided for it.

### *Sko Catalog AUD (LPCTN06)*

Help Ticket #37462

- Corrected a deficiency where stock number was disappearing when adding a serial component to a bulk kit. The user will no longer be able to select a serial stock number for a bulk kit, and a message will display indicating this fact.

### *Master Issue List AUD (LPWHN22)*

Help Ticket #37938

- Corrected a deficiency where updating and deleting LIN/TAMCNs for a Master Issue List was erroring.
