Release Notes Overview

Release 2020.1.4 for the Defense Property Accountability System (DPAS) was released on May 29, 2020.

This release includes both system change requests and corrected program deficiencies identified by the user community. The update impacts the Warehouse Management module.

Warehouse Management (WM) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01593 – Member Site Feedback Area - Notifications

- Added a section on the Homepage Dashboard to show unread comments from members. Added the ability to mark comments read/unread from the inquiry.

SCR #01604 – DW Form 01 - Add Meter Reading for Kit Header

- Added the meter reading for the kit header to the DW Form 01.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Individual/Unit Issue/Return Inquiry (LPWHQ32)

Help Ticket #26464

- Corrected a deficiency where the users received a critical error message when using the Group By within the Enterprise Rollup of the Issue/Return Activity Inquiry.

Help Ticket #28367

- Corrected a deficiency where the Issue/Return Activity Inquiry was not populating correctly when using the Not Returning Reason Code of 'RL - Return Later'. This ensures the Not Returning Reason Codes will display and the Issued Quantity will reflect the original Issued Quantity associated to the Individual Return.

Warehouse Transfer Add Update (LPWHN43)

Help Ticket #30032, #34048

- Corrected a deficiency where printing an 1149 out of Warehouse Transfer in the sending warehouse was erroring if the items have been Received/Verified in the receiving warehouse.

Individual Issue (LPWHN32.1)

Help Ticket #30920

- For the External Environments and Standalone sites, corrected a deficiency where sizes were not displaying in the drop downs for size categories in Individual Issue.

Individual Returns (LPWHN46.1)

Help Ticket #38619

- Granted Individual Return access to the 'ALT - Warehouse Manager' role.

Master Issue List AUD (LPWHN22)

Help Ticket #39014

- Corrected a deficiency where deletion of a Master Issue List with excluded Stock Numbers was causing an error.

Warehouse AUD Program (LPWHN04)

Help Ticket #38960

- Corrected a deficiency where the user was not able to change the default DoDAAC of the warehouse if the existing DoDAAC was managed by a DPAS ICP, nor could users set the default DoDAAC of the warehouse to a DoDAAC managed by a DPAS ICP.
