Property Accountability (PA) Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Print Label Request (LPAIN07)

Help Tickets #37086, #39376

- Corrected a deficiency where users were not able to print out the following barcode labels in the Chrome browser:
 - INS – INSPECTION DUE
 - ICN – INVENTORY CONTROL NUMBER
 - LOC – LOCATION
 - CON – CONTAINER

Asset Visibility Interface (WPHRI09)

Help Ticket #39607

- Turned on the Asset Visibility feed for Site ID FF-GEIT / Air Force.

Warehouse Management (WM) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01492 – Expiring Items Report to include Next Inspection in algorithm

- Updated the Expiring Items Report to allow it to account for the inspection schedule of kit components and the kits in which they are contained. When "Include Inspections" is selected upon running the report, the expiration date of the kit components are moved up to the date of the nearest future inspection based on the inspection schedule and latest inspection information of both the component itself and the kit in which it is contained. This is only for when there are inspections already set up for those components and kits.

SCR #01605 – ASA(ALT) Roles Modification

- Modified the endpoints in Physical Inventory Resolution to account for CR/CRU permissions.
- Granted CRU Physical Inventory Resolution access to the following role:
 - ALT - Tool Crib Manager
- Granted CR Physical Inventory Resolution access to the following roles:
 - ALT- Site Management Admin
 - ALT- Item Manager
 - ALT - Warehouse Management Admin
- Granted Full Physical Inventory Resolution access to the following roles:
 - ALT - Warehouse Officer
 - ALT - Warehouse Administrator Government
 - ALT - Warehouse Administrator Contractor
 - ALT - GFP Manager

- ALT - Physical Inventory Manager
- ALT - Warehouse Manager
- ALT - Warehouseman Government
- ALT - Warehouseman Contractor
- ALT - GFM-A Account Manager
- ALT - Fielding Coordinator/Management
- ALT - Fielder

SCR #01569 – Stock Nbr Activity Report

- Updated the Stock Number Activity Report to allow the user to select either multiple Stock Numbers or a LIN/TAMCN, with each single stock number chosen residing in its' own tab. The maximum number of stock numbers allowed to be run at one time is 500. Also updated the date selector to allow the user to select a fiscal year range, fiscal year and month range, or month and year range, instead of selecting two specific dates for the desired date range.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

USAFA SIS Personnel Interface (LPCAI03)

Help Ticket #41177

- Member profile matching process is updated as follows:
 - Member Profiles that have matching EDI PIs on the CSV are updated first.
 - Member Profiles that do not have matching EDI PIs are then matched by Secondary ID, which are then updated to the data that is on the CSV.
 - Member Profiles that do not have matching EDI PIs or Secondary IDs will then have a new member record created.

Quality Control Mgmt (LPWHN56)

Help Ticket #41609

- Corrected a deficiency where the Complete button became inaccessible on QC Inspections, preventing users from completing the inspections.

Warehouse Activity Report (LPWHR78)

Help Ticket #27483

- Corrected a deficiency where a blank page was inserted after each subreport of the Activity report.

Help Ticket #41217

- Corrected a deficiency where the Serial Number was not getting displayed on location moves on the Activity report.

Member Activity (LPWHQ36)

Help Ticket #30031

- Corrected a deficiency where the completed issues that have been backordered were not displaying in the Member Activity Inquiry.

Issue/Return Activity Inquiry (LPWHQ32)

Help Ticket #30031

- Corrected a deficiency where the completed issues that have been backordered were not displaying in the Issue/Return Activity Inquiry.
