Release Notes Overview

Release 2020.2 for the Defense Property Accountability System (DPAS) was released on June 26, 2020.

This release includes both system change requests and corrected program deficiencies identified by the user community. The update impacts eCatalog, Maintenance and Utilization, Materiel Management, Property Accountability, SA/LW Registry, and Warehouse Management modules.

eCatalog

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01241 – DPAS Catalog – Add basic SKO Catalog functionality for PA use

- Added 1 new screen – SKO category – within the eCatalog module under the Catalog menu in PA.

Maintenance and Utilization (M&U) Module

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01328 – NMC Reporting

- Provided Non Mission Capable Reporting by Line Item Number and Non Mission Capable Inquiries.

Materiel Management (ICP) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01177 – Modify DPAS to Support the Receipt and Management of Customer Requisitions

- Added automated functionality to update an RSA DoDAAC and/or RIC within the ICP module when a matching Warehouse DoDAAC and/or RIC is updated within the Warehouse Management module.
- The ICP will include a new suite of functionality to create and manage Disposal Release Orders that are sent to a client RSA. Similar to the existing Customer Requisition functionality, this process will allow the ICP to select inventory to be disposed and issue a DLMS 940R down to the RSA for disposal. The RSA will generate the 945A to the ICP and the 1348 to send to DLA Disposition Services along with the disposal inventory.

SCR #01016 – Air Force GFM-A – Accountability and Accounting for OM&S

- The ICP will process reversals of previously sent inventory affecting DLMS transactions. This includes the DLMS 527R (Receipt), 947I (Inventory Adjustment), and 867I (Issue). When the ICP receives a reversal, it will attempt to revert the quantity change that happened by that previous transaction, if the inventory is still present.

Property Accountability (PA) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01223 – Use of DA Forms

- Provided DA Form 4949 “Administrative Adjustment Report” for generation.
- Provided DA Form 581 “Request for Issue or Turn-in of Ammunition” for generation.

SCR #01551 – Add X807 Accounting Transaction LMP Interface

- Added X807 and X806 Transactions to the LMP interface.

SCR #01558 – WAWF GFP TS Improvements

- Updated iRapt/WAWF transactions to reflect PIEE changes for GFP.

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Manage Inventories (WPHRN02)

Help Ticket #33462

- Corrected a deficiency where users were able to delete Open Inventories regardless of the status of the inventories shown on screen by clicking “Delete”.

Asset Update (WPHRN51)

Help Ticket #38701

- Corrected a deficiency where an ‘Internal Validation Methods - Asset ID validation shows a duplicate Asset ID exists’ error displayed when the user tries to change the location of a duplicate Asset Id.

Help Ticket #35195

- Corrected a deficiency where the users were not able to update the Fund Code on an asset.

Central Receiving (WPHHN01)

Help Ticket #38059

- Corrected a deficiency where the UIT data file was not getting transmitted completely.

Asset Disposition (WPHRN29)

Help Ticket #27606

- Corrected a deficiency where Bulk Asset Lot numbers are not generated on 1149 and 1348 forms.

Address Directory AUD (WPUTN13)

Help Ticket #32154

- Corrected a deficiency where users that tried to update an address under a UIC that they don't have access to, caused an 83 error.
- Corrected a deficiency when using a Turn In type action, users were unable to see DE-Destination addresses in NF-FAC.

Manage Inventories (WPHRN02)

Help Ticket #33462

- Corrected a deficiency where users were unable to locate inventories for update.

Stock Number/Selected Mass Change (WPCTN02)

Help Ticket #26266

- Corrected a deficiency where all stock numbers were not getting successfully updated in a mass update / stock number update attempt.

Asset Receiving (WPHRN11)

Help Ticket #38625, #38796, #39149

- Corrected a deficiency where users were unable to select a manufacturer entry on the manufacturer entry browse.

SA/LW Registry Module

System Change Request (SCR)

The following feature was implemented by this release:

SCR #01303 – Registry Infrastructure to Prepare External Reporting

- DPAS' existing event structure for handling SA/LW assets between WH/PA and the Registry module will be updated to support an upcoming feature for sending DLMS transactions outbound for SA/LW assets where the Owing DoDAAC (WH) or Accountable UIC (PA) has configured to report their SA/LW to an external component Registry.

Warehouse Management (WM) Module

System Change Request (SCR)

The following features were implemented by this release:

SCR #01191 – Duplicate member profiles

- Users will now be able to combine 2 member profiles into a single member profile, allowing them to remove duplicate profiles themselves, without contacting the helpdesk for support.

SCR #01504 – Receiving Documents Inquiry Total Price

- The Document Inquiry will now show the total price of any receipt documents, calculated based on the quantity accepted for that receipt and the stock number unit price of the item.

SCR #01331 – Deferred Parts process in WH

- Provided new fields in Work Order inquiry and add deferred Parts Inquiry.
- Altered Warehouse Replenishment to support deferred parts.

SCR #01560 – Mandatory Fields in Customer Profile

- FAD, media status, and condition code will not be mandatory fields in the customer profile build, they will be static.

SCR #01566 – Data on DD1348-1A

- When processing / printing a DD 1348-1A during the materiel release order (MRO), the continuation form will print up to 25-50 serial numbers with UII information.

SCR #01569 – Stock Nbr Activity Report

- Added a new report that will show the historical issues, backorders, receipts, and inventory adjustments, along with the current on hand quantity, for a given stock number and a date range.

SCR #01592 – Repair Parts Inquiry by Component Stock Number

- Added a new report that will show repair parts used within a given date range for a given set of end item stock numbers and/or repair part stock numbers.

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Quality Control Mgmt (LPWHN56)

Help Ticket #37251

- Corrected a deficiency within the QA/QC process where changing out bulk components of a kit after updating information regarding serialized components of the same kit, caused the changes to the serialized components to revert back to their original values.

Sets Kits Outfits - Build (LPWHN41)

Help Ticket #36590

- Corrected a deficiency where duplicate inspection fields and javascript errors were showing up when a kit was built and inspected in one warehouse and subsequently transferred to another warehouse and inspected again there.

Help Ticket #28698

- Corrected a deficiency where, in certain cases, users were getting an '83 Error' while removing a bulk component from a kit.

Dw Fm 01 Set Kit Outfit (LPWHR07)

Help Ticket #28688

- Enabled the ability to print a DW01 Form for issued items.

Inventory Update Manager (LPWHN52)

Help Ticket #34486

- Corrected a deficiency where re-identifying one serialized item as a different serialized item that had been disposed of causes an '83 Error'.

Maintenance Issue (LPWHN71)

Help Ticket #26195

- Corrected a deficiency where Asset Ids were not displaying for requests that were backordered on the Maintenance Issue screen.

Quality Control Mgmt (LPWHN56)

Help Ticket #38346, #38630

- Corrected a deficiency where users were getting an '83 Error' trying to add remarks to a QC inspection while completing the inspection.

Warehouse Activity Report (LPWHR78)

Help Ticket #27483

- Corrected a deficiency where the columns on the Warehouse Activity Report PDF overflowed to the next page.

Member Size Report (LPWHR84)

Help Ticket #37025

- Corrected a deficiency where Member Size Reports were failing when the users tried to run the report.

Real - Time Report (LPUTR02)

Help Ticket #39648

- Corrected a deficiency where users could not download Scheduled Reports, and not export Real Time Reports in Google Chrome.
