

## Effective Date

23 July 2021

## Release Notes Overview

Release 2021.2.3 for the Defense Property Accountability System (DPAS) was released on July 23, 2021.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts Maintenance and Utilization, Property Accountability, Registry, and Warehouse Management modules.

### Maintenance and Utilization (M&U) Module

#### Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

##### *Requisition (LPRMN01)*

Help Ticket #54996

- Corrected a deficiency where, during the third page of the Requisition Add (Order Details) screen, selections in the Major Command Code dropdown were missing.

##### *Asset Preventive Maintenance Schedule Inquiry (WPMAQ08)*

TFS ID# 74529

- Corrected a deficiency where the details for Asset Preventative Maintenance Inquiry were displaying the wrong asset ID's from what was being searched for as well as being different from the results screen.

### Property Accountability (PA) Module

##### *FSM Asset Authorization Report (WPAUR24)*

TFS ID#74369

- Corrected a deficiency where the FSM Asset Authorization Report was creating errors.

### Registry Module

#### Help Tickets

The following Registry Help Ticket was closed by this release:

##### *Registry Asset AUD (LPRGN04)*

Help Ticket #55641

- Corrected a deficiency in the DLMS Review Grid where the Transaction Type Code was absent and the grid was not sorting by Processed Date upon loading.

---

## Warehouse Management (WM) Module

### **System Change Request (SCR)**

The following feature, which is a part of Warehouse Management SCR 01712, was implemented by this release:

#### SCR #01712 – Warehouse Receiving Due In Role

- Created a new role “Due-in Technician” in the Warehouse Management module that limits the User Role to perform the Material Management Functions - LPWNH19 and LPWNH19D process in Receiving.

### **Help Tickets**

The following Warehouse Management Help Tickets were closed by this release:

#### *DLMS Inbound (LPGLI03)*

##### Help Ticket #55722

- Corrected a deficiency where warehouse SBT-20 Armory was receiving a "187 - Record already exists for data entered." error message on an inbound 856S DLMS transaction for a Document Number.

#### *Material Release Order (LPWHN35)*

##### Help Tickets #51862, #53431

- Corrected a deficiency where initiating the ship process in MRO, where items that were being shipped in the following week, would display an error message.
