

## Effective Date

11 January 2019

## Release Notes Overview

Release 6.3.10 for the Defense Property Accountability System (DPAS) was released on January 11, 2019.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts the Maintenance and Utilization, Property Accountability, and Warehouse Management Modules.

### Maintenance and Utilization (M&U) Module

#### System Change Request (SCR)

The following Maintenance and Utilization SCRs were closed by this release:

##### SCR #01017 – M & U Role (Utilization)

- New M&U Utilization Role which allows Users access to only the following processes: Utilization (Main Menu) and WPMAN24 (Maint Asset Util AUD).

##### SCR #01035 – Utilities Technician Role

- New M&U Utilities Technician Role which allows Users access to only the following processes: Utilities (Main Menu) and Utilities > File Uploads (WPMAU02: Dispatch Rates, Telematics, DLA Fuel, Vehicle Diagnostics and Driver Behavior).

#### Help Tickets

The following Maintenance and Utilization Help Tickets were closed by this release:

##### *Work Order AU (WPMAN12)*

###### Help Ticket #26583

- Corrected a deficiency of slowness when attempting to close work orders.

##### *Work Order AU (WPMAN12)*

###### Help Ticket #26545, #26546, #26548, #26555, #26563

- Corrected a deficiency where part request on a new work order was failing.

### Property Accountability (PA) Module

#### Help Tickets

The following Property Accountability Help Tickets were closed by this release:

##### *IT Dashboard (WPTIN04)*

###### Help Ticket #27

- Corrected a deficiency where search of an added stock number was not returning stock number added.

### *Asset Update (WPHRN51)*

Help Ticket #25731

- Corrected a deficiency where loan update process was erroring.

## Warehouse Management (WM) Module

### **Help Tickets**

The following Warehouse Management Help Tickets were closed by this release:

### *Warehouse Transfer AUD (LPWHN43)*

Help Ticket #26557

- Corrected a deficiency where the Warehouse Transfer program would not allow the transfer of more than 26 serialized assets at a time based on Suffix Code restrictions. Suffix codes will now be correctly applied to changes in condition codes instead of at the Serial Number level. This will allow for Warehouse Transfers of any size without restriction by Suffix Code.

### *Individual Item Return (LPWHN79)*

Help Ticket #26036

- Corrected a deficiency where return of individual item was erroring.

### *Individual Returns (LPWHN46.1)*

Help Ticket #23700

- Corrected a deficiency where Owing DODAAC is not getting auto populated when adding an item to the individual return.

### *Unit Issue Post-Post (LPWHN68)*

Help Ticket #26081

- Corrected a deficiency where RO is not getting populated when it is selected in Post-Post.

### *Inspection AUD (LPWHN88)*

Help Ticket #26017, #26246, #25231, #25863

- Corrected a deficiency where inspection update was not occurring correctly.
