15 March 2019

Release Notes Overview

Release 6.3.40 for the Defense Property Accountability System (DPAS) was released on March 15, 2019.

This release includes system change requests and corrects program deficiencies identified by the user community. The updates impact Administration, Materiel Management, Maintenance and Utilization, Property Accountability, and Warehouse Management Modules.

Administration Module

System Change Request (SCR)

The following Administration Module SCR was closed by this release:

- SCR #01302– DPAS/AFWAY Update to IDP Login Services and AFWAY Service
- Login parameters are modified so that user can login to multiple modules.

Materiel Management Module

System Change Request (SCR)

The following Materiel Management Module SCR was closed by this release:

- SCR #01177 – Reportable Commodity Type added to Stock Number Grids; Customer requisitions are generated for a referral order
- Reportable commodity type field is added to the stock number Grids on Program Edit Page and available for search criteria as well
 - A customer requisition record is created for a referral order and is displayed within Customer Requisition Grid
