

## Effective Date

7 October, 2016

## Release Notes Overview

Release 4.1.21 for the Defense Property Accountability System (DPAS) was released on October 7, 2016.

This release corrects a number of program deficiencies identified by the user community and through testing by the development team. The updates impact 3 modules (Warehouse Management, Property Accountability and Security).

## Warehouse Management (WM) Module

### Help Tickets

The following Warehouse Help Tickets were closed by this release:

#### *Disposition (LPWHN50)*

Help Ticket #11586, #10835

- Corrected a deficiency that caused the user to be unable to add a Remark to a Disposition after the Warehouse Manage approved but prior to the COR approval.

Help Ticket #10800, #9705, #9325, #11558, #11613, #11701

- Corrected a deficiency that caused the Disposition approval statuses to not update correctly after being submitted.

Help Ticket #11646, #11228

- Corrected a deficiency that caused poor system performance related to selected approver contact information during Disposition approvals.

#### *Condition Code Downgrade (Background Process) (LPWHB01)*

Help Ticket #11247, #11357, #11462

- Corrected a deficiency that was causing the Condition Code of assets to be incorrectly downgraded due to multiple ICNs for a single stock number having different due dates for their next inspection(s).

#### *MDR Inventory Extract (LPWHI05)*

Help Ticket #11645

- Corrected a deficiency that was causing the Issue Type Master Code of “U” for Unit Issue to not be populated on the data pull for the MDR Extract.

## Property Accountability (PA) Module

### Help Tickets

The following Property Accountability Help Tickets were closed by this release:

#### *User UIC (WCUSS37)*

##### Help Ticket #11542

- Corrected a deficiency that caused Inactive UICs to be displayed in the User UICs report and added the Site ID to User Training Reports.

## Security

### Help Tickets

The following Security Help Tickets were closed by this release:

#### *Site Id/Actbl UIC Change Tier Selector (WPSEN21)*

Help Ticket #11629

- Corrected a system performance issue on the Tier Selector when locking down users.
