Release Notes Overview

Release 4.1.40 for the Defense Property Accountability System (DPAS) was released on December 09, 2016.

This release includes system change requests and corrects program deficiencies identified by the user community. The update impacts the Maintenance & Utilization, Property Accountability, and Warehouse modules.

Maintenance & Utilization (M&U) Module

Help Tickets

The following Maintenance & Utilization Help Tickets were closed by this release:

Print Work Order (WPMAR04)

Help Ticket #12012, #12013, #12014, #12042

- Corrected a deficiency where the width of the boxes was causing the Work Order Report to print several blank pages.

Warehouse Management (WM) Module

System Change Request (SCR)

The following Warehouse Module SCRs were closed by this release:

SCR #0977

- Recommended to add the 'Last Updated by Field' to the Shelf Life Extension AUD screen and updated when a change is made.

Help Tickets

The following Warehouse Help Tickets were closed by this release:

Individual Issue (LPWHN32)

Help Ticket #8821

- Corrected a deficiency preventing users to issue LIN/TAMCN kits through the Individual Issue process.

Help Ticket #9463, #11519

- Corrected a deficiency that caused an unexpected error when attempting to zero out a Backorder.

ICN Inventory Inquiry (LPWHQ47)

Help Ticket #11517

- Corrected a deficiency that would not allow users successfully export the results of the ICN Inventory Inquiry.

Commodity Type AUD (LPCTN10)

Help Ticket #9969

- Corrected a deficiency that incorrectly filtered Reportable Commodity Types as Security Commodity Types which prevented the Commodity Type from displaying.

Quality Control (LPWHN56)

Help Ticket #10990

- Corrected a deficiency preventing services performed to populate in the Instructions column and inaccurate data populated in the Post M&U flag column of the QC/Inspection grids.

Receiving (LPWHN19)

Help Ticket #11605

- Corrected a deficiency that caused the user to observe severe latency when receiving a large number of assets being sent to Quality Control.

Document Inquiry (LPWHQ79)

Help Ticket #11982

- Corrected a deficiency that caused a Page Not Found error when selecting the Document Number link in Unit Issue search results.

Disposition (LPWHN50)

Help Ticket #11924

- Corrected a deficiency that allows the user to enter a single NCB code for all items located within a Container during the Disposal.

Help Ticket #11923

- Corrected a deficiency that required the user to select a NSN before the NCB selector would display on the Disposition screen.

Member Activity (LPWHQ36)

Help Ticket #11953

- Corrected an error where members assigned to more than one UIC had all their Unit issues combined in the DW05UC form.

Inventory Update (LPWHN51)

Help Ticket #12043

- Corrected a deficiency that caused the Inventory Update screen to display the earliest Next Inspect Due Date and not the next Inspection Date.

Property Accountability (PA) Module

System Change Request (SCR)

The following Property Accountability SCRs were closed by this release:

SCR #01040

- Recommended to add 'Authorization Property Type Code' as a searchable field on the Asset Inquiry search criteria and listed when selected in output results in order to identify assets that are associated to Authorization(s).

SCR #01033

- Recommended to have the capital asset report with requested data run and archived automatically after depreciation posts at the end of the month in order to support asset balance and audit reporting requirements.

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Real Property AUD (WPACN11)

Help Ticket #11777

- Corrected a deficiency that prevented installations with blank postal codes from displaying in search results.

LIN/TAMCN Inquiry (WPCTQ07)

Help Ticket #11388

- Corrected a deficiency causing an unexpected error to display on Detail and Summary LIN/TAMCN Authorization and History inquiries.
