Release Notes Overview

Release 5.1.21 for the Defense Property Accountability System (DPAS) was released on July 7, 2017.

This release includes corrections to program deficiencies identified by the user community. This update impacts Warehouse Management Module and Property Accountability Module.

Warehouse Management Module

Help Tickets

The following Warehouse Management Help Tickets were closed by this release:

Quality Control (LPWHN56)

Help Ticket #16407

- Corrected a deficiency that caused the the QC Deficiency results to be displayed multiple times on the QC Deficiency Report.

AIT Conduct Physical Inventory (LPAID05)

Help Ticket #16492

- Corrected a deficiency that caused the user to receive a critical error when attempting to add an asset that does not exist in DPAS within an associated ICN.

Help Ticket #16581

- Updated the process to modify the Container field to a drop-down for selection of a container when no scannable label exists.

Inventory Update Manager (LPWHN52)

Internally found

- Corrected a deficiency wherein quantity adjustments weren't producing the correct DLMS transactions. Particularly, certain DLMS transactions for losses only were getting sent as gains.

Property Accountability Module

Help Tickets

The following Property Accountability Help Tickets were closed by this release:

Real Property AUD (WPACN11)

Help Ticket #15583

- Corrected a deficiency that allows the Fund Cd / ASN of DAI to return projects and tasks through the Task Cd browse.
