

DPAS PA CIP Project Planning Webinar – Post Report

In this webinar we'll provide an overview of what Project Planning can do for you. The Project Planning process gives organizations the ability to build project plans before the CIP process begins. This tool is meant as a means of building and gathering the data before going to CIP, it is designed to aid in the decision-making process by tracking all aspects of a project such as projected financial requirements and individuals involved in the entire process.

Presented by:

Brenda Kateluzos, Technical Trainer
