Participant Questions and Comments:

QUESTION: What was the code in Pending Transactions for assets being returned from Loan by Contractor?

ANSWER: Because both the Stock Number and manufacturer are known, because the asset was already on the property book, the **Status** is CC (Catalog Complete)

QUESTION: Can a Contract be set up in the master data as having both GFP and be for an equipment purchase?

ANSWER: I am afraid not. That would be two different categories. Separate contracts would need to be created.

QUESTION: Would the Contractor have to be DPAS trained to receive property through WAWF?

ANSWER: The idea behind using DPAS Loans Via WAWF is that all acceptance is done within WAWF, which most Contractors already know.

QUESTION: Would that have to be stated in contract, that contractor needs to be WAWF trained?

ANSWER: Almost every Contractor has someone who is WAWF trained since that is how the Contractor gets paid.

QUESTION: What is the link for the replay of this webinar?

ANSWER: All recorded webinars can be found on our Support Website (<http://dpasupport.golearnportal.org/>) and navigate to **Training > Webinar Archives**. This webinar will be under Wide Area Workflow (WAWF).
