Agenda

- **Generating a Maintenance Issue from a Work Order**
  - Must select 'Parts Required' and 'Request from Warehouse' from the Sub-Work Order
  - Warehouse must be associated with the Maintenance Activity
  - Users can build the 'Parts Required' from within a Work Order or from a Work Plan Detail
- **Maintenance Issue- Warehouse Parts Management**
  - Provides for the capability for the Warehouse to receive parts requests from the Maintenance and Utilization module to complete a work order
  - Requests come from M&U into the Maintenance Issue process within the Warehouse module and are associated to a specific work order from M&U
  - Issues are then approved , picked and issued. If a work order number was assigned the Work Order within M&U will be updated with the product charges
  - Material that is requested but not in stock within the Warehouse will be backordered and issued once received
