Individual Issue & Return

- **Individual Issue & Return – Overview**
 - **Introduced in Release 3, May 2015.**
 - ❖ The Individual Issue and Return processes were developed as a way to manage the incoming and outgoing flow of assets in the warehouse – specific to individuals within a given UIC
 - ❖ DPAS user will be able to document what assets are being issued to or returned by a individual
 - ❖ The Return process will showcase the assets that are eligible to be placed back among the on-hand inventory and allow you to return them as such into a specified location or container
 - ❖ Functionality includes the ability to issue bulk serially-managed materiel and kits
