Repair Parts Catalog & Repair Process

## ● Repair Parts Process: Pre-requisites

- Create an Inspection Type/Action and Inspection criteria
- Your primary asset stock number has been added to the Stock Number Catalog
- Your repair part(s) stock number(s) have been added to Stock Number Catalog
- You've performed the Stock Item process for any and all stock numbers involved
- If necessary – you have enough on-hand quantity for this inventory – which is accomplished using the various methods found in the Receiving process
