Introductions

Presenter

Scott Milewski, IT Training Specialist

Q&A

Duane Gore, IT Training Specialist
David Brooks, DPAS Support Specialist

Ground Rules

- **Submit questions** through the Q&A pod – we will discuss them throughout the session
- **Turn your volume Up** and let the presentation team know if you have trouble hearing the presentation (through the Q&A pod)
- You can maximize the presentation pod (**toggle Full Screen**)
- Download the presentation from the **Download Presentation pod**

DPAS

An Overview of WAWF and DPAS

WAWF and DPAS

OUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

4

4/10/2013

Overview

This webinar covers fundamentals about WAWF, and the transactions that come into DPAS as a result of WAWF entries.

OUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

5

4/10/2013

Wide Area Workflow

- WAWF is a secure Web-based system that enables electronic form submission of Invoices, government inspection, and acceptance documents.
 - Supports the DoD goal of moving to a paperless acquisition process.
 - Equivalent to an electronic DD-250.
- WAWF also provides the capability to electronically capture and submit information in support of the shipment and receipt of Government Furnished Property (GFP).

OUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

6

4/10/2013

WAWF/DPAS Interface

- The purpose of the WAWF/DPAS interface is to receive automated Property Shipment Notices (PSNs) generated by WAWF for:
 - Receipts (AS Transactions)
 - Equipment Transfers (TS Transactions)

OUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

7

4/10/2013

WAWF/DPAS Interface Guidelines

- **Guidelines:**
 - Only PSNs containing Unique Item Identifiers (UIIs) are routed to DPAS for new procurements.
 - DPAS accepts PSNs with and without UIIs for transfers.
 - The PSNs are routed to DPAS UICs based on Department of Defense Activity Address Codes (DoDAACs) associated with the WAWF transaction.

OUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

8

4/10/2013

Initiation and Acceptance

- The WAWF transaction is initiated by a vendor in fulfillment of a Government contract.
- When the Government Acceptor acknowledges receipt in WAWF, the PSN information is sent to DPAS.
 - New procurements received from WAWF appear as Pending AS Transactions in DPAS.
 - For equipment transfers, the acceptance in WAWF will trigger a Pending TS Transaction.

OUSS (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

9

4/10/2013

DPAS/WAWF Processes

DPAS interfaces with WAWF to conduct the following processes:

- Receiving new procurements
- Processing loans out to contractors as GFP
- Receiving loan returns from contractors
- Processing loans out to other Federal Agencies
- Receiving loan returns from other Federal Agencies

OUSS (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

10

4/10/2013

DPAS

Supported Scenarios

Loan Scenarios

- **DPAS Supported**
 - Government to Government
 - Government to Contractor
 - Contractor to Government
- **Not DPAS Supported**
 - Contract to Contract
 - Contractor to Contractor

OUUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

11

4/10/2013

DPAS

Setup

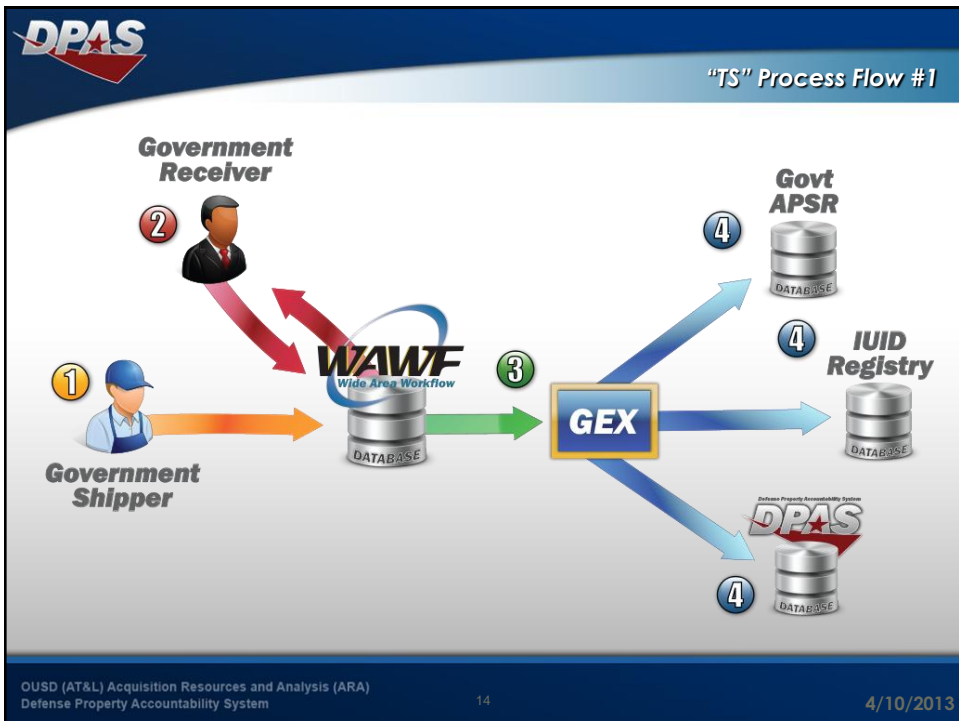

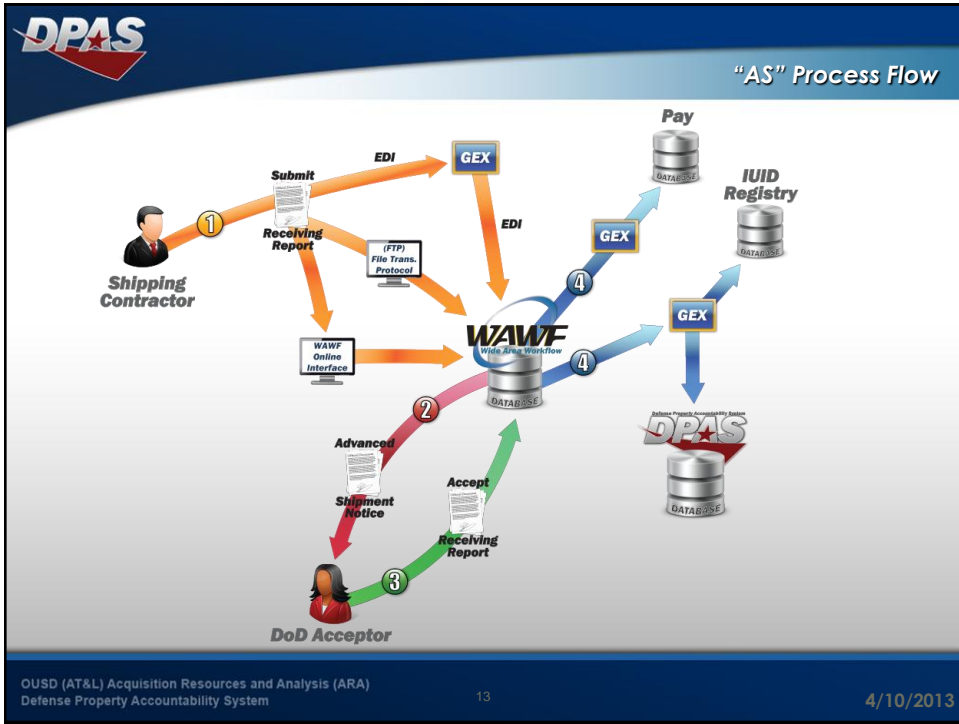

There are several actions that must be completed before a WAWF Transaction can be processed to DPAS.

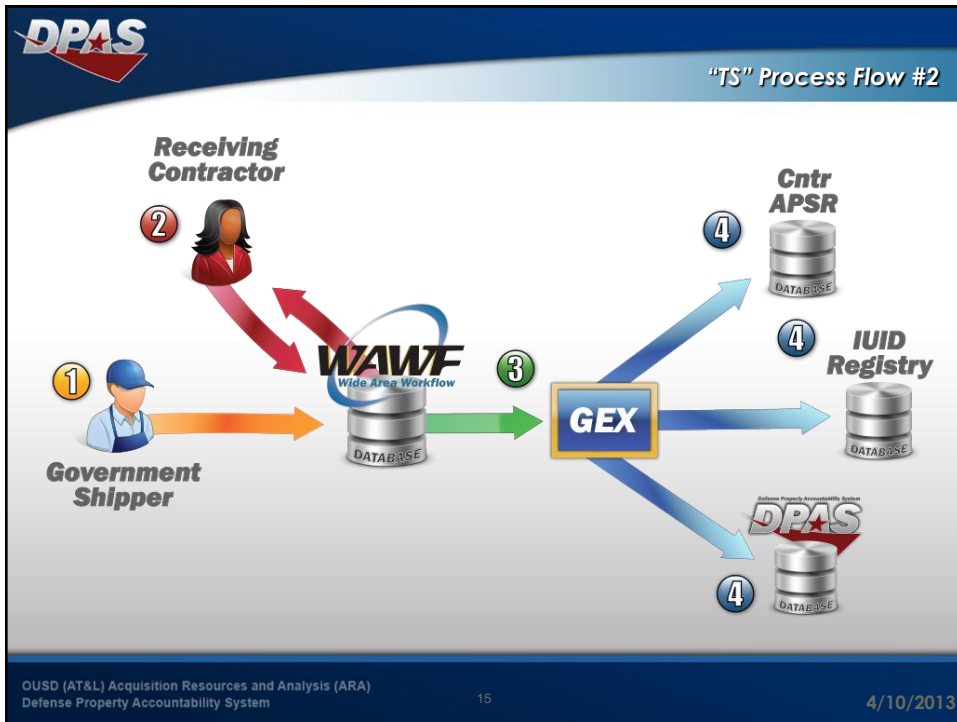

- Verify the DODAAC to be used is valid (<https://www.daas.dla.mil/daasing/>)
- The DODAAC, which will be placed in the WAWF Ship To field, must be associated with an appropriate Unit Identification Code (UIC) in DPAS.
- DPAS APOs contact the WAWF help desk and identify the DODAAC they want associated with DPAS - It is assigned a Receiving Activity Code (RAC) of DPAS01 in WAWF.

OUUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

12

4/10/2013

DPAS Pending Statuses

Depending on catalog status, the items are assigned a code of:

- **CP (Catalog Pending)** if the Stock Nbr is not in the DPAS Catalog.
- **MP (Manufacturer Pending)** if the Stock Nbr is in the DPAS Catalog, but no Mfr data exists.
- **VP (Vendor Pending)** if the contract referenced in the PSN does not exist in DPAS (Only for "TS" transactions).
- **CC (Catalog Complete)** if the Stock Nbr and Mfr data exist in the DPAS Catalog.

OUUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

16 4/10/2013

Exclusions

There are some exceptions when WAWF is not a requirement:

- Purchases paid for with a government credit card
- Awards made to foreign vendors for work performed outside of the United States
- Classified contracts
- Contracts awarded by deployed contracting officers
- Purchases to support unusual or compelling needs in FAR 6.302-2
- Undue burden by either the vendor or DoD (See specifics under the DFAR 252.232-7000 clause [↗](#))

Processing a “TS” Transaction

Transaction

OUUSD (AT&L) Acquisition Resources and Analysis (ARA)
Defense Property Accountability System

41

4/10/2013

“TS” Scenario #1

- This transaction is initiated by a Government representative in WAWF for an asset that is not yet in DPAS destined for another Government activity.
- It will appear in DPAS as a Pending “TS” Transaction.
- The resulting asset will be brought onto DPAS as a New Procurement (Transfer In – outside DPAS).

Defense Property Accountability System

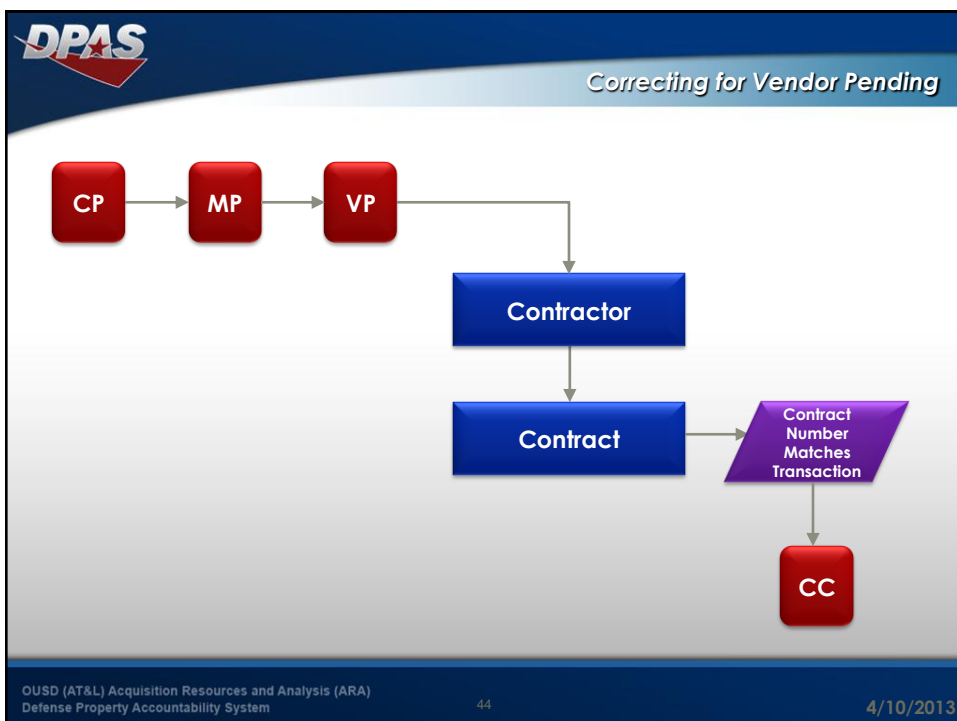

42

4/10/2013

DPAS "TS" Scenario #2

- This transaction is initiated by a Government representative in WAWF for an asset that is not yet in DPAS destined for a Contractor.
- It will appear in DPAS as a Pending "TS" Transaction.
- If the Contract Number in the WAWF transaction does not match a DPAS Contract Number, the Status will be set to VP.
- The resulting asset will be brought onto DPAS and automatically set as Out On Loan/GFP.
